PROGRAM** might be for you!

Get hands-on experience by
spending class time at local-

- Home Day Cares
- Preschools
- Child Care Centers
- Elementary Schools
- Elderly Services
- Our own on-site lab

Human Service Club

Students participate in volunteering, community donations and fieldtrips during this student-run group. Other activities include guest speakers on careers and experiences as well as group activities.

Human Services

The first year of this program focuses on life-span development and issues. Students will learn professional work habits, work place safety practices, interpersonal, helping and communication skills. They will study human development, and health and wellness issues throughout the life cycle. The second year of the program focuses on gaining skills and knowledge in working with young children (birth through twelve years) and their families. Students will also learn about the services provided by human services agencies. Students may gain experience and knowledge by working in a variety of human services settings as part of the program. Placements may include home day care, center care, elementary school, preschool and working with the elderly. These placements enable the student to apply techniques learned in the classroom as well as further gain knowledge about human services, working with others and life-span development.

Credits: Three credits per year

Graduation Requirement:

Social Studies- A student who successfully completes this two-year program shall receive one credit in Social Studies towards graduation requirements. (This credit may not count as a credit in U.S. History or World History.)

Prerequisite: Above a 69 in grade level math; above a 74 in 10th grade English and Instructor permission

Suggested Preparation: Introduction to Emergency Medicine and Introduction to Mental Illness Psychology and word processing skills
