

REQUIRED COMMUNICATIONS

October 17, 2011

To the Board of School Directors of
Southwest Vermont Regional Technical School District
Bennington, VT

Dear Board Members:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Southwest Vermont Regional Technical School District for the year ended June 30, 2011. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated July 6, 2011. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Southwest Vermont Regional Technical School District are described in Note 2 to the financial statements. As described in Note 2, the School District changed its accounting policies related to fund balance classifications by adopting Governmental Accounting Standards Board Statement #54, Fund Balance Reporting and Governmental Fund Type Definitions. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

Management's estimate of the depreciable lives of property and equipment are based on judgments regarding the length of time an asset will provide value to the District.

Management's estimate of the accrual for accumulated sick leave is based on the number of days and current pay rates in effect at year-end. This is the best estimate of the future amounts of leave that will be paid out.

We evaluated the key factors and assumptions used to develop these estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were:

The disclosure of capital assets in Note 5 to the financial statements describes the historical cost of the buildings, furniture and equipment, and improvements. Note 5 also discloses the current year activity for these classifications.

The disclosures related to long term debt in Note 6 to the financial statements describes the types of debt taken on by the District showing the current year activity relating to each form of debt. Note 6 also identifies the current portion, interest rate and maturity of each debt balance.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated as of the date of this letter.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the District’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Southwest Vermont Regional Technical School District’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Information in Documents Containing Audited Financial Statements

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of the Regional Governing Board and management of Southwest Vermont Regional Technical School District and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

BONADIO & CO., LLP
