Introductory Class to the Theatre Arts Program

Stagecraft/ Drama & Theatre (Course #3210): Stagecraft is a hands-on class where you will learn carpentry skills while building and painting sets for theatre productions. You will also have the opportunity to design sets for the theatre. You will learn how to create lighting for plays as well. This is a good class for people interested in building trades, theatre or video.

High School Credit(s): *0.5 credits earned towards elective credit.*
